

R for Absolute Beginners

This workshop series will introduce participants to R and RStudio by providing instruction and hands on exercises. Participants will leave with an understanding of basic principals in the use of R for data analysis, including the basics of importing data, data manipulation, and simple graphics. No programming experience is required.

May 16, 18, 23 & 25, 2018 • 9:00 - 11:00 am

474 Chown Building, 753 McDermot Ave, University of Manitoba, Winnipeg, MB

Learning Objectives:

- » Introduce R and RStudio
- » Learn about the basic data structures in R
- » Practice basics of importing and exporting datasets
- » Introduce basic data management techniques
- » Learn elementary graphic functions for data visualization

Registration Information:

\$40 course fee. Space is limited. Registration deadline: May 1, 2018.
